

Handicap Rules

- New members must have at least 5 rounds from **ANY** regulation course to establish a handicap.
- When you establish a handicap at Elma, please remember we use Equitable Stroke Control.
- Members must post all scores, both home and away. All 9 or 18 hole scores must be posted.
- When posting away score, make sure to enter correct Slope and Rating for tees played, if course is not listed on computer.
- Any player signature is required for a card to be valid for handicap purposes. For Tournament scores, card must be attested by another member. Your full name must be printed on all scorecards.
- When posting Tournament scores, make sure to select Tournament as type of score on computer. Tournaments are usually Weeklies, Qualifiers, Majors, and Monthly's when playing your own ball. Members will be notified when to post a "T" score.
- Penalties for violations: First offense, the handicap chairman will contact the member and explain the violation; he may also assess a penalty of ½ of your handicap. Second offense, you will be assessed a penalty of your full handicap. **It is the member's responsibility to insure that their scores are posted correctly.**
